Description

"I've always liked it when it rains...
the rain makes the silence go away,
it feels comfy and relaxing.
I don't like the silence
the silence means they're hiding
if they're hiding, they're coming closer
and if they come closer
they'll hurt me, for what I did- *didn't* do...
for what I *couldn't* do"

I am **not** seeking Beta-Testers.

- This is the **official** Five Nights At Candy's 3 game. Please don't report the game, as I am Emil "Ace" Macko, the creator of Candy The Cat & Co. and the FNAC series. You can also keep an eye on my Tumblr and Twitter accounts for updates:
